

Cleanstream Carpets

Community Benefit From Carpet Tile Re-Use

Why We Do It

Three and a half million carpet tiles are disposed of to landfill every year in South Wales and the South West so, uniquely for the region, we're offering a take-back and repurposed (re-used) carpet tile sale business.

Who We Are

Cleanstream Carpets is a community interest company. Our aims include supporting the community via the reuse and recycling of carpet. The Directors are all volunteers from across the carpet tile industry and social sector. Our operations are run by well-known South Wales based community re-use business 'Too Good To Waste'.

What We Do

Our Carpet Tile Business

We collect or take delivery of good quality used carpet tiles and supply them as repurposed tiles.

The tiles are graded to meet your requirements and come with a guarantee that they have been diverted from landfill.
